

Zeeshan Haider

MERN STACK DEVELOPER | SOFTWARE ENGINEER

Passionate MERN Stack Developer with hands-on experience in building modern, responsive web applications using the MERN (MongoDB, Express.js, React.js, Node.js) Stack. Certified by **Saylani Mass IT Training (SMIT)**, with a strong foundation in component-based architecture, state management, and RESTful API integration. Currently contributing to real-world projects at **Go Dekho Pakistan Pvt. Ltd.**, focusing on developing scalable digital solutions and optimizing user interfaces for performance, responsiveness, and user experience.

– 2.2 CGPA

Intermediate (HSC) D.J Sindh Government Science College

08/2020 - 07/2022

Karachi, Pakistan

Pre-Engineering

– 72%, A Grade

EXPERIENCE AND TRAINING

Mern Stack Developer (Onsite) Go Dekho Pakistan

04/2025 - Present

Karachi, Pakistan

I work at **Go Dekho Pakistan Pvt. Ltd.**, a project-based software house, where I serve as a **MERN Stack Developer**. I focus on developing full-stack web applications and contribute to building scalable and efficient software solutions across various client projects.

React Js | Frontend Developer (Remote) Precise Tec

03/2025 - 02/2025

Toronto, Canada

I worked remotely at **Precise Tec**, a Canada-based product-based software company, where I contributed to building scalable and user-friendly frontend solutions. I was involved in a comprehensive project for **Sowa Tools & Machines**, focusing on enhancing their digital products and overall user experience.

MERN Stack Development (Course) Saylani Mass IT Training (SMIT)

12/2023 - 02/2025

Training, Karachi, Pakistan

COURSE

– I have successfully completed the **MERN Stack Development** course from **SMIT (Saylani Mass IT Training)**, where I gained hands-on experience in building **dynamic** and **scalable web applications**.

includes : 1) Frontend Development with React.js, Next.js, and Tailwind CSS

–

2) Backend Development using Node.js, Express.js, and MongoDB

SKILLS

HTML5 + CSS3

JavaScript & ES6

Typescript (Learning)

Tailwind & Bootstrap (For Styling)

ShadCn & AntDesign (For Components)

React JS (JavaScript library)

State Management (Context API, Redux Toolkit)

React Routing (React Router (SPA), Dynamic Routing)

React Hooks (useState, useEffect, useContext, useRef)

API Integration (Fetching Data - Fetch API, Axios)

Deployment (Vercel & Netlify)

Version Control (Git & GitHub)

FireBase (NoSQL database)

Next Js (Learning)

Node Js (Learning)

Express Js (Learning)

MongoDb (DataBase)

3D-Animation (Three.js, GSAP, Framer Motion)

Ai Tools (Cursore.ai, Firebase Studio, etc)

Hostinger
